

JGI's Services

Technology Consulting

From planning through installation through implementation, JGI's functional and technical consultants deliver effective and efficient solutions for our clients. Our knowledge of the Lawson environment, the Lawson product suite and the integration with third-party applications sets us apart

Report Development

JGI has expert report designers and report developers as well as a lower-cost off-shore solution. Whether it's Crystal Reports or Lawson Back Office, our report writers will deliver the necessary financial and operating reports to your organization.

Training

JGI is a firm believer in transferring knowledge to our clients. We have developed formal training courses for many Lawson applications. Some examples:

- ◆ Crystal Reports for Lawson
- ◆ LBI Administration
- ◆ LBI Fundamentals
- ◆ ProcessFlow Administration
- ◆ Lawson Security
- ◆ Requisition Self Service

Business Consulting

JGI Management Consulting works with you and your business partners to make sure the Lawson technology is meeting the needs of your organization. Our top-notch consultants also offer a wide range of business improvement services.

Custom Solutions

JGI has experience with a wide array of applications, databases and reporting solutions. Whatever your need may be—Lawson or non-Lawson—we can help.

Don't Miss Out! JGI provides an Educational Webinar Series that has been well received by the Lawson User Community. Visit the JGI website (www.JGInfo.com) to register for upcoming Webinars.

www.JGInfo.com

I have worked in IT for over twenty years . During this time, I have worked with many different consultants. JGI is on the top of my list. The company has excellent hands-on consultants, and their management team is pleasant and easy to work with.

- JGI Healthcare Client

Lawson Business Intelligence

JGI is Lawson's leading LBI partner and their only LBI certified partner. JGI has implemented LBI for hundreds of organizations and provided them with a Business Intelligence platform that personifies "intelligent analytics". Our services include every component of LBI from design through implementation.

- ◆ Dashboard Development
- ◆ Scorecard Analytics
- ◆ Rights Management and Security
- ◆ Report Development and Bursting

Lawson System Foundation

Our proficiency with the Lawson Software structure has uniquely positioned us to provide an array of services for your Lawson investment. Our deep understanding of Lawson makes us a strategic business and technical partner for companies today.

Some of our technical areas of expertise are:

- ◆ Lawson Environment Upgrades
- ◆ Lawson Application Upgrades
- ◆ LSF 9 Security Implementations, Design & Migrations
- ◆ Troubleshooting

Lawson Supply Chain Management

JGI will help you automate and optimize your procurement process to achieve cost efficiencies and meet service level requirements.

From managing your vendors and materials spend to managing inventory to implementing Requisition Self-Service, JGI will help you design and implement the Lawson solution to meet your needs.

Strategic Human Capital Management

We've been working with human resource systems and organizations for 30 years and understand how to implement the technology to meet your human capital objectives. Having the right partner to assist you is the key to success. With JGI's extensive understanding of human resource systems, we can ensure an effective implementation.

Lawson Human Resource Management

Automating your critical Human Resources processes and getting it right is the first step toward world class Human Capital Management. From Payroll to Benefits to Employee Self Service, we'll help you get it right. JGI also offers unique Lawson Absence Management services; our experience ranges from standard implementations to custom solutions.

Lawson Talent Management

Talent Management software provides valuable insight to enable organizations to recruit, develop and retain the right employees. JGI can assist you end-to-end, from developing a Talent Management strategy to optimizing your processes—Talent Acquisition, Performance Management, Compensation, Learning and Development, Succession Planning—to implementing Lawson's suite of best-in-class Talent Management software.

Lawson Workforce Management

Workforce scheduling is key to optimizing workforce management tasks. Lawson Workforce Management software can help you improve profitability and business outcomes by ensuring the right people are in the right places at the right time while managing labor hours and overtime usage.

Lawson Financial Management

JGI's knowledgeable consultants will help you take advantage of the sound financial processes embedded within the Lawson suite, including:

- ◆ Lawson General Ledger
- ◆ Lawson Cash Management
- ◆ Lawson Accounts Receivable
- ◆ Lawson Accounts Payable

Lawson Budgeting & Planning

JGI consultants are certified in the latest releases of Lawson Budgeting & Planning. We have advanced Flexible Budget module skills including volume based variance analysis. Our JumpStart LBP Reporting Package includes a combination of services, reports and documentation and delivers:

- ◆ An LBI Dashboard for Budget Planners
- ◆ Four Custom LBP Reports
