

**COGNOS 8 (ReportNet) - BOOT CAMP****1. What is Cognos ReportNet****A. Components****2. Cognos Connection****A. Cognos Connection**

- I. Working with Cognos Connection
- II. Organizing Entries
- III. Searching for an Entry
- IV. Copying an Entry
- V. Moving an Entry
- VI. Specifying the Order of Entries
- VII. Disabling an Entry
- VIII. Deleting an Entry

**B. Reports**

- I. Running a Report
- II. Report Formats
- III. Report Outputs
- IV. Report Languages
- V. Viewing the Run History for Reports
- VI. Customizing Portal Pages

---

**3. Query Studio****A. Query Studio**

- I. Using Query Studio
- II. Creating a Report
- III. Report Types
- IV. List Reports
- V. Grouped List Reports
- VI. Crosstab Reports
- VII. Charts

- VIII. Chart Configurations
- IX. Working with the Data
- X. Filters
- XI. Sorting Data
- XII. Grouping Identical Values
- XIII. Grouping
- XIV. Changing the Data Format
- XV. Calculations

---

**4. Report Studio****A. Report Studio**

- I. Working in Report Studio
- II. The User Interface
- III. Insertable Objects Pane
- IV. Properties Pane
- V. Explorer Bar
- VI. Work Area
- VII. Basic Report Structure
- VIII. Types of Reports
- IX. List Reports
- X. Crosstab Reports
- XI. Charts and Chart Types

**B. Report Studio**

- I. Filters

**C. Report Studio**

- I. Prompts and Parameters
- II. Prompts
- III. Type of Prompts
- IV. Parameters
- V. Drill Through

**D. Report Studio**

- I. Layouts and Formatting
  - II. Page Header
-

- III. List Overall Header
- IV. List Header
- V. Page Footer
- VI. List Overall Footer
- VII. Chart Footer
- VIII. Borders
- IX. Padding
- X. Margins
- XI. Calculations
- XII. Summaries
- XIII. Header
- XIV. Footer

## 5. Framework Manager

### A. Framework Manager

- I. Framework Manager Environment
- II. Projects
- III. Models
- IV. Namespace
- V. Query Subjects
- VI. Data Source Query Subject
- VII. Model Query Subject
- VIII. Stored Procedure Query Subject
- IX. Query Item
- X. Packages
- XI. Project Folder
- XII. Templates Folder
- XIII. Framework Manager Flow – Overview
- XIV. Framework Manager Workflow
- XV. Relationships
- XVI. Cardinality

### B. Framework Manager

- I. Publishing Metadata for Report Authors
- II. Packages
- III. Managing Packages
- IV. Governors
- V. Security

### C. Framework Manager

- I. Preparing a Model for Reporting
- II. Calculations
- III. Filters
- IV. Parameterized SQL
- V. Session Parameters
- VI. Macros
- VII. User Defined Functions
- VIII. Stored Procedures
- IX. Multilingual Supports
- X. Usage and Aggregation

## 6. Administration and Security

### A. Administration and Security

- I. Administration Tools
- II. Directory Tools
- III. Capabilities Tools
- IV. Schedule Management Tool
- V. Server Administration Tool
- VI. Deployment Tools

- III. Authentication
- IV. Cognos Namespace
- V. Authorization
- VI. Security Objects
- VII. Access (Permission) Rights
- VIII. Policy
- IX. Owner Property

### B. Administration and Security

- I. Security
- II. Security Architecture

### C. Administration and Security

- I. Architecture
- II. ReportNet Configurations
