JGI’s LAWSON BUSINESS INTELLIGENCE SERVICES

Getting the most out of your Lawson data

With JGI’s LBI Services, you can get the most out of your Lawson Business Intelligence (LBI) Reporting system. LBI enables the transformation of your data into powerful and actionable information designed for you and your organization. These days, you don’t have time to read through pages of reports each day. LBI provides easy management-by-exception with flexible business rules and alerts—so regardless of what data you’re tracking, you can easily set an alert to monitor any changes.
